

A rustic kitchen scene featuring various ingredients on a wooden surface. In the foreground, there's a large, golden-brown, round baked item, possibly a flatbread or a large omelette, resting on a wooden plate. To its left are several brown eggs. Above the eggs are several small, light-colored potatoes. To the right of the baked item, there's a knife with a wooden handle, a small purple onion, and some garlic. In the background, there are more onions, a glass bottle of oil, and some red tomatoes. A white circle is superimposed over the center of the image, containing the text 'CookBook'. The circle has a dashed red line on its left side and a solid purple dot on its right side.

Not only is an omelette quick and easy to make, it is a paragon of economy. Odds and ends (a.k.a. leftovers) rise to a new level when placed inside an omelette.

Recipe added to My Favorites Recipes!

It's easy to think you may not be a pork chop fan. They often come overcooked and dry, but they don't have to be that way. These pork chops are marinated to make them extra flavorful and tender. A marinade will also help a pork chop from being dry. The marinade works to break down the meat and keeps it tender and juicy after cooking. Pork chops can go in so many different flavor routes. Paprika rubbed, smothered, or like this one with a honey soy marinade.

In 2-quart saucepan, mix sugar, cornstarch and salt. Gradually stir in milk. Cook over medium heat, stirring constantly, until mixture thickens and boils. Boil and stir 1 minute. Gradually stir at least half of the hot mixture into egg yolks, then stir back into hot mixture in saucepan. Boil and stir 1 minute; remove from heat. Stir in butter and vanilla. Pour pudding into dessert dishes. Cover and refrigerate about 1 hour or until chilled. Store covered in refrigerator.
